

Primer A

I want to see my white cat ride on a horse. I went to the circus and saw what they did that day. It did not seem to be new to the big cats there. It was like they had no fear. One cat ran into a ring of fire, and he came out with this hat on his head. Now I say my cat can do this, too. I have four at home who like to please me.

Primer B

There is a pretty apple tree in our grandmother's yard. We asked if we could have some apples, and she said yes. It must have the best apples in the world! I like them because they are so good. I saw them under the tree this fall so I ate all the ones that did not have black or brown spots. Soon they will be gone, but I am sure I will get to eat more next year.
